

FIRST GOLD SHIP IN, LIES IN HARBOR WITH \$7,255,000

The North German Lloyd liner Kronprinzessin Cecilie tied up at her dock in Hoboken to-day with the first consignment of the gold which European bankers are rushing across the ocean to the aid of the distressed institutions in New York. The liner carried \$7,255,000 in 235 boxes.

Following the Cecilie, the Cunarder Lusitania from Liverpool, is winging its flight across the water with \$10,000,000 more. She departed three days after the Cecilie and is due to arrive here early Thursday morning.

All day long this \$7,255,000 in gold must remain aboard the Cecilie. As the big vessel docked a swarm of anxious bank messengers, guards and officers, with bank trucks waiting, made ready to cart the gold to the New York institutions. They were considerably disappointed when told that a Custom House permit was necessary before the consignment could be touched.

As this department's office is closed all day, the consignees must wait until to-morrow. Meantime the gold is as safe as though it reposed in the vaults of the big banks.

"Morgan Is a Trump, Teddy's Life Chance," George Gould Declares

George J. Gould, with his wife and son, arrived from Europe to-day. He appeared in excellent health. Mr. Gould and his family completed a touring trip in Europe of 20,000 miles.

"Morgan is a trump," enthusiastically declared Mr. Gould. "He is to-day conspicuous as the greatest financier in the world. His grasp of the situation has apparently saved the country some troubles some times."

President Roosevelt is blamed for the disaster in some circles, but really, I don't know enough about it yet to make any statement as to the responsibility of the crash. This much I'll say, that "Teddy" has the chance of his life to relieve the currency situation, which has never been entirely satisfactory. It would be a great feather in his cap to cash a special session of Congress to take action on currency reform. Nothing short of absolute reform will remove some evils.

Our Credit Hurt Abroad.

"The credit of Americans has been greatly injured abroad. The fine im-

never more prosperous than at present. This is attested in the inability of the railroads to handle the products of the farmer and manufacturer.

"We always have a scarcity of money in the fall, and this year it simply has been a little worse than usual. Then, too, there is a currency shortage all over the world, and this has made it a bit difficult for us to get the heavy supply of cash necessary to move our crops."

Innocent Suffer from Fine.

The Standard Oil sentence was one of those things which always hurt the innocent people. They have to suffer. The fine hit the interests of the people. I am inclined to believe the people of Europe were justified in their alarm. If one corporation can be treated as was the Standard Oil, the same thing might happen to others, and investors are not anxious to sacrifice their money."

As to the telegraph strike Mr. Gould said:

"The strike was most ill-advised. As the men have been quick to discover

Former Pittsburger, Defendant in Paris Divorce, Strikes Back.

PARIS, Nov. 4.—In connection with the pending suit for divorce brought by Mrs. A. Hart McKee against her husband, A. Hart McKee, formerly of Pittsburg, counsel for Mr. McKee has brought a damage suit against Mrs. McKee and her father, Col. Mr. McKee charges that clippings containing the newspaper articles complained of were sent by Col. Baxter to him (Mr. McKee's) mother. The court summoned the elder Mrs. McKee and Col. Baxter to appear Nov. 12 and give testimony in the case.
